HACC Teachers Receive Scholarships

Deb Maska, Gail Wickham and Lindsay Miles, who teach Infant, Preschool and Toddler groups at the Hays Area Children's Center, have all been awarded scholarships through the T.E.A.C.H. Early Childhood® Project, sponsored by the Kansas Association of Child Care Resource and Referral Agencies (KACCRRRA).

The scholarship award will pay a portion of the cost of tuition and books and provide a travel stipend for each teacher. Each teacher will be working towards an associate's degree in Child Care.

Wickham and Maska will take classes from Cloud County Community College, Concordia, Kan., and Miles will take classes from Barton County Community College, Great Bend, Kan..

The funds to provide these scholarships were made possible by the Kansas Department of Social and Rehabilitation Services. The scholarship program was developed to increase the educational level of child care teachers and to improve their compensation.
